

POULTRY PHARM

PROVEN BY VETS

Poultry Pharm Multivitamin Plus

Product Description:

A complementary liquid supplement for poultry containing vitamins and natural antioxidants to help support performance and health in broilers, layers and game birds. Key vitamins included are Vitamin A, D3, E, & Group B vitamins and are used as a booster for growth and protect against stress and challenges. B Complex Vitamins in particular support metabolic activity associated with energy production, particularly following stress. Intensive production can generate metabolic and physiological stress, increasing the production of damaging cell reactive free radicals. Poultry Pharm Multivitamin Plus helps ensure valuable nutrients are utilised for growth, free radical effects are minimised and birds are supported during challenging periods.

Functional Ingredients:

Comprehensive Vitamin Specification:

Providing vital vitamins to help minimize the risk of sub clinical deficiencies potentially caused by stress. This stress can be brought on from environmental, production or management factors. Providing broad spectrum vitamins is required for normal physiological needs. For example, the inclusion of vitamin D3 is good for bone and growth and vitamin C helps form and maintain bones, skin, eyes, liver and nervous system.

B Complex Vitamins:

Supports metabolic activity associated with energy production, particularly valuable following stress. An example of this is vitamin H (Biotin) helps convert nutrients to energy and is good for

skin, eyes, liver and the nervous system.

High in Vitamins E, Vitamin C, Grape Extract and Rosemary Extract:

Antioxidant vitamins which provide natural immune support by reducing cell damage to improve growth potential. Natural antioxidants effective in minimizing the damage caused by free radicals. Grape extract also assists in the utilisation of nutrients.

Specification

Specification per **1t of product:**

Ingredient	Unit	Amount
Vitamin A	Iu	6,000,000
Vitamin D3	Iu	1,300,000
Vitamin E	Mg	50,000
Vitamin C	Mg	50,000
Nicotinamide (Vitamin B3)	Mg	40,000
Grape PP	Mg	15,000
Pantothenic Acid (Vitamin B5)	Mg	8,500
Vitamin B6	Mg	7,500
Vitamin B2	Mg	6,000
Vitamin B1	Mg	4,000
Vitamin K	Mg	2,000
Folic Acid	Mg	2,000
Biotin (Vitamin B7)	Mcg	190,000
Vitamin B12	Mcg	22,000
Excipients		To Volume

Composition:

Propylene glycol, Potassium chloride, Rosemary extract.

Instructions for Use:

Dilute 400ml per 1000lt (0.4ml in 1L) of clean drinking water. For chicks, use at chick start. Use for 2-3 days.

For other birds, use for 3-5 days during times of stress, recovery from disease, after vaccination or after the use of other medication. You may wish to discuss the use with your veterinary surgeon.

For maximum productivity, use for 2 days on, 2 days off for 2 weeks.

1 litre makes 2666 litres

5 litres makes 13,333 litres

Physical Characteristics:

Test	Specification
Appearance	Orange/amber liquid
Odour	Characteristic
pH**	<4

Product Analysis:

Analysis	Specification
Protein	5.5%
Fibre	<0.1%
Ash	<0.4%
Oil	4.3%

Shelf Life:

24 months from date of manufacture

Storage:

Keep out of reach of children

Store in a cool dry place, out of direct sunlight between 5-25°C

Do not freeze

Packaging:

Primary packaging: 5lt HDPP Plastic & 1lt Eclipse Visistrip bottles

Additional Information:

B/N and expiry information to be placed on neck of can.
